take 10% off of that!

Budget Saving Plan with Room To Grow

Do you want to build a home, but like many others, the cost is overwhelming? With this live in garage, you will have a place to live, while you build your dream home.

Build this live in garage on your home site first! It will serve as a convenient location to safely store supplies and tools, as well as provide a place to live while constructing your home. This will save money on the rent or mortgage you currently have, as well as provide a finished garage when you are finished with your home!

Available in either a framed structure with log siding finish, or made from full logs! This package will complement your home as well as provide a potential source of income in the future.

- Cedar Knoll Log Homes is a family owned business that grew from a small lumber yard and retail supply store in 1979 to its seven acre yard site today. Our 20,000 square foot milling operation runs six days a week, and has the capacity to mill over 100 homes a year.
- Our award winning manufacturing facility is located in the Adirondack Mountains of New York State, at the very source for Northern White Pine and Eastern White Cedar.
- We have an experienced staff and state of the art technology to mill our own Cedar and Pine log homes, log home siding, premium wainscot, custom cedar decks, stair and railing systems, and a host of other unique and specialty lumber products for your dream home.
- Our Custom Design team can assist you with a new Cedar or Pine log home, log home renovations and additions, log cabins, camps, garages, and commercial buildings such as Cedar or Pine lodges and restaurants.
